There are no locking options available for Bridge Home products.

Finish options

All Bridge Home units listed are available with steel finishes from the Vision paint palette, and laminate finishes from the Vision wood palette*.

Vision steel palette

Vision wood palette

*Bridge Home units are not available in wood finish 'Black 574'.

Additional information

Please note: When specifying Bridge Home products, please consider the following:

Bridge Home products are available with a laminated carcass only.
Closure fronts are available in either laminated or steel.

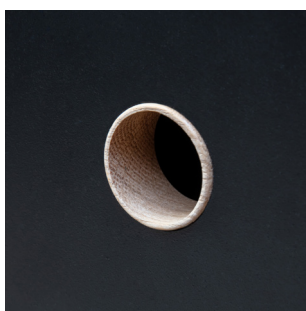

The back panel will always match the selected finish of the front closures.

Bridge Home products with a steel frame top are only available with steel closures from the Vision paint palette. Please note, the frame finish will match the closure finish.

All Bridge Home products will have a steel inset black base and oak wood legs.

Handle finishes

All Bridge Home products have an oak round wood handle.

Round wood handle

Assembly

Assembly for fitting legs and Bridge Home products to the base will be required on site.
