

BUDDY

BISLEY

Helping you work better anywhere

Buddy by Bisley can be your right (or left!) hand man to take care of all your office storage needs.

As workplaces adjust to focus on individual rather than shared spaces, personal and safely accessible storage plays an important role.

An alternative to the versatile free-standing Note pedestal and Caddy, Buddy is a single-person desk-attached locker, the perfect addition to your working day!

The compact and space efficient design allows you to stay connected with your work, whilst maintaining a clutter free desk. With your office Buddy, you can feel reassured that not only are your belongings stowed within a safe personal workspace, but that they are

always within reach, for maximum productivity.

Designed to accompany static or height adjustable desking, Buddy moves as you do, ensuring you can quickly and easily access your belongings – whether sitting or standing.

Your colourful companion is available in a variety of steel and wood finishes with a choice of locking options and internal configurations, so there is a combination to suit everyone.

POSSIBILITIES

Buddy is your own personal locker right under and attached to your desk, so why not put your own stamp on it? Choose from 33 steel paint colours to seamlessly suite in with your existing aesthetic, or add a pop of colour to your under-desk storage. You can even choose a wood effect front if desired, with a choice of 7 laminates.

A range of locking options comes as standard including key, combination and digital locks so you can specify a system to best suit your needs.

PRODUCT BENEFITS

- **Convenience** – Access your personal items and everyday essentials whether sitting or standing at your desk
- **Secure** – Ensure your personal belongings are safely secured at your desk with a choice of locking options
- **Organised** – Various internal configurations allow you to stow your things the way you like and enjoy an efficient, clutter free workspace
- **Customisable** – Choose from an extensive palette of standard paint finishes or add a laminate front to suite with your desking
- **Personal** – Avoid shared storage solutions and keep all of your belongings close by for peace of mind in the workplace
