

BISLEY | MultiDrawer

BISLEY

www.bisley.com

MultiDrawers are as iconic as they are versatile. Originally designed in 1958 to be a desk-side filing cabinet, they have since become a design classic – they are even ranged by the Museum of Modern Art in New York.

Made from steel and powder-coated with a highly durable smooth finish, MultiDrawers work anywhere. They are the ultimate storage solution; compact, robust and built to last.

In 2017, the MultiDrawer was awarded the prestigious Design Guild Mark Award.

A classic storage solution that keeps any room free of clutter

Available in a selection of size and colour options to suit all needs

With easy sliding, removable drawers

Additional tray inserts allow for greater organisation of small parts (available separately)

Label holder inserts included

Made in the UK
