## Industrial Storage

Bisley's ToolStor mobile workshop storage brings agility to the workshop and is ideal for organising and moving tools, equipment and components securely. Strengthened base struts and reinforced carcasses provide our mobile units with the same stability and structural integrity as their stationary counterparts. The anti-tilt locking mechanism and anti-roll off tray top allow you to safely move everything you need for the task at hand, helping to improving productivity and efficiency.

### Bringing mobility to industrial working environments

---
