

Test Certificate

BISLEY OFFICE FURNITURE

The 'OBA72F3FFH Pedestal' submitted for testing by Bisley Office Furniture, has satisfied the relevant requirements of BS EN 14074:2004 Office furniture (Tables and desks and storage furniture. Test methods for the determination of strength and durability of moving parts) and has failed to satisfy the relevant requirements of BS EN 14073-2:2004 Office furniture (Tables and desks and storage furniture. Test methods for the determination of strength and durability of moving parts) and has satisfied the relevant requirements of BS EN 14073-3:2004 Office furniture (Tables and desks and storage furniture. Test methods for the determination of strength and durability of moving parts). *As the 'OBA72F3FFH Pedestal' submitted for testing is representative of the whole range of the same construction, based on the evidence supplied by Bisley Office Furniture, SATRA would also consider the other smaller units in the range to also meet the relevant strength requirements of BS EN 14074: 2004 and BS EN 14073: 2004 Part 3 (any changes to the range will invalidate the certificate).*

Tests marked † are not UKAS Accredited

SATRA Report: FUR0149298/0711

7th August 2007 (amended 13/08/07)
